PROFILE

MSc Biotechnology graduate with strong grounding in microbiology, clinical instrumentation testing, and QC protocols. Proficient in wet lab techniques (electrophoresis, chromatography), clinical diagnostics (AST, ASO, glucose), and validation of clinical instruments under GLP/ISO. Experience in IT-supported lab automation, including bioinformatics scripting and DevOps for biotech workflows.

SKILLS

Clinical & Lab: Electrophoresis, Spectrophotometry, LC-MS, GC-MS, PCR, DNA/RNA Isolation, Microscopy, Macrophage Culturing, Biochemical Profiling, Clinical Chemistry, BTS 350 (AST, ASO, Glucose)

Microbiology: Culturing, staining, antimicrobial testing, microbial biotechnology

Bioinformatics & IT: BLAST, AutoDock, SwissDock, Python, Bash (for automation), AWS, Terraform, Docker, Kubernetes

EXPERIENCE

- QC Intern – Biosystems Pvt. Ltd., Chennai | Feb 2022 – Jun 2022
- Validated BTS 350 instruments for absorbance, linearity, and clinical chemistry (AST, ASO, Glucose)
- Performed photometric accuracy and precision testing under GLP/ISO standards
- Freelance Biotech Support & IT Automation | Remote | 2023 – Present
- Supported research labs by building Django-based lab and clinic systems for data recording
- Developed automation scripts (Python, Bash) and deployed tools using cloud & container tech
- Applied DevOps methodologies for deploying bioinformatics tools and pipelines

PROJECTS

- In-Silico Docking – Ligand design for muscarinic acetylcholine receptor M1 (AutoDock)
- Antimicrobial Study – Algae extract (*Turbinaria Ornata*) for bacterial inhibition
- NGS & Neuroinformatics – Neuroreceptor sequence analysis pipelines
- Lab Automation Tool – Django-based clinic & attendance system hosted on AWS

CERTIFICATIONS

Clinical Research | Regulatory Affairs | GLP & GMP | Bioinformatics Diploma | Lab Automation & AI in Life Sciences

EDUCATION

- MSc Biotechnology – Sri Sankara College, Univ. of Madras | 2019 – 2021

Core Modules: Molecular Biology, Genetic Engineering, Immunotechnology, Clinical Research, Microbial Technology, Bioinformatics, Bioprocess Engineering, Biostatistics

- BSc Biotechnology – Sri Sankara College, Univ. of Madras | 2016 – 2019

Core Modules: Microbiology, Biochemistry, Molecular Genetics, Enzyme Technology, Plant & Animal Biotechnology, Environmental Biotech, Instrumentation Techniques
